OsteoDenx™ from Nikken is a revolutionary formula to help maintain strong, healthy bones for life. With aging, bone tissue is lost and the skeletal structure can become dangerously weakened. OsteoDenx helps prevent or reverse this in a unique way. It is not a nutritional supplement or a prescription osteo drug. It is the ONLY product with a patented system, [Syno-portin technology] that supports natural bone tissue growth. It literally helps rebuild bone density.* Everyone needs to make OsteoDenx part of their daily routine of replenishment for strong bones and joints, preservation of cartilage and maintenance of essential minerals. Pack has a 5 months supply.

Lactoferrin Gold 1.8™ [the gold standard] is a natural material that forms the basis for living things and is vital for health. Although it is normally supplied in our diet through dairy products, we do not receive the daily lactoferrin that is supposedly present in these high-fat, lactose-containing foods. Lactoferrin Gold 1.8 helps the body absorb the nutrients it needs. A natural probiotic, it supports the growth of beneficial bacteria and as a probiotic, helps eliminate bad or non-beneficial bacteria.* Produced via specialized, precision techniques, this Lactoferrin Gold 1,8 is the only premium, ultra-pure form of lactoferrin now available. Pack has a 5 month's supply.

Calcium Plus supports the maintenance of healthy bones throughout life. It is a whole-foods formulation that provides natural nutritional support. It contains 600 mg of calcium with magnesium to aid in calcium absorption. Calcium Plus supports the formation of new bone cells, muscle and nerve tissue. It's designed for maximum absorption during sleep, when the body is more receptive to calcium. It also offers boron to influence calcium and magnesium metabolism. Regular intake of calcium and related vitamins and minerals is an effective way to support the bones and the skeletal system.* Pack contains a 5 month's supply.
